

Impressions about Estonia from Erasmus programme and degree students – opinions forwarded to Study in Estonia.

Erasmus- ja jatko-opiskelijoiden vaikutelmia Virosta, Study in Estonialle lähetetyt mielipiteet.

Мнения студентов об Эстонии, обучающихся по программе Эразмус и на получение ученой степени, присланные в Study in Estonia

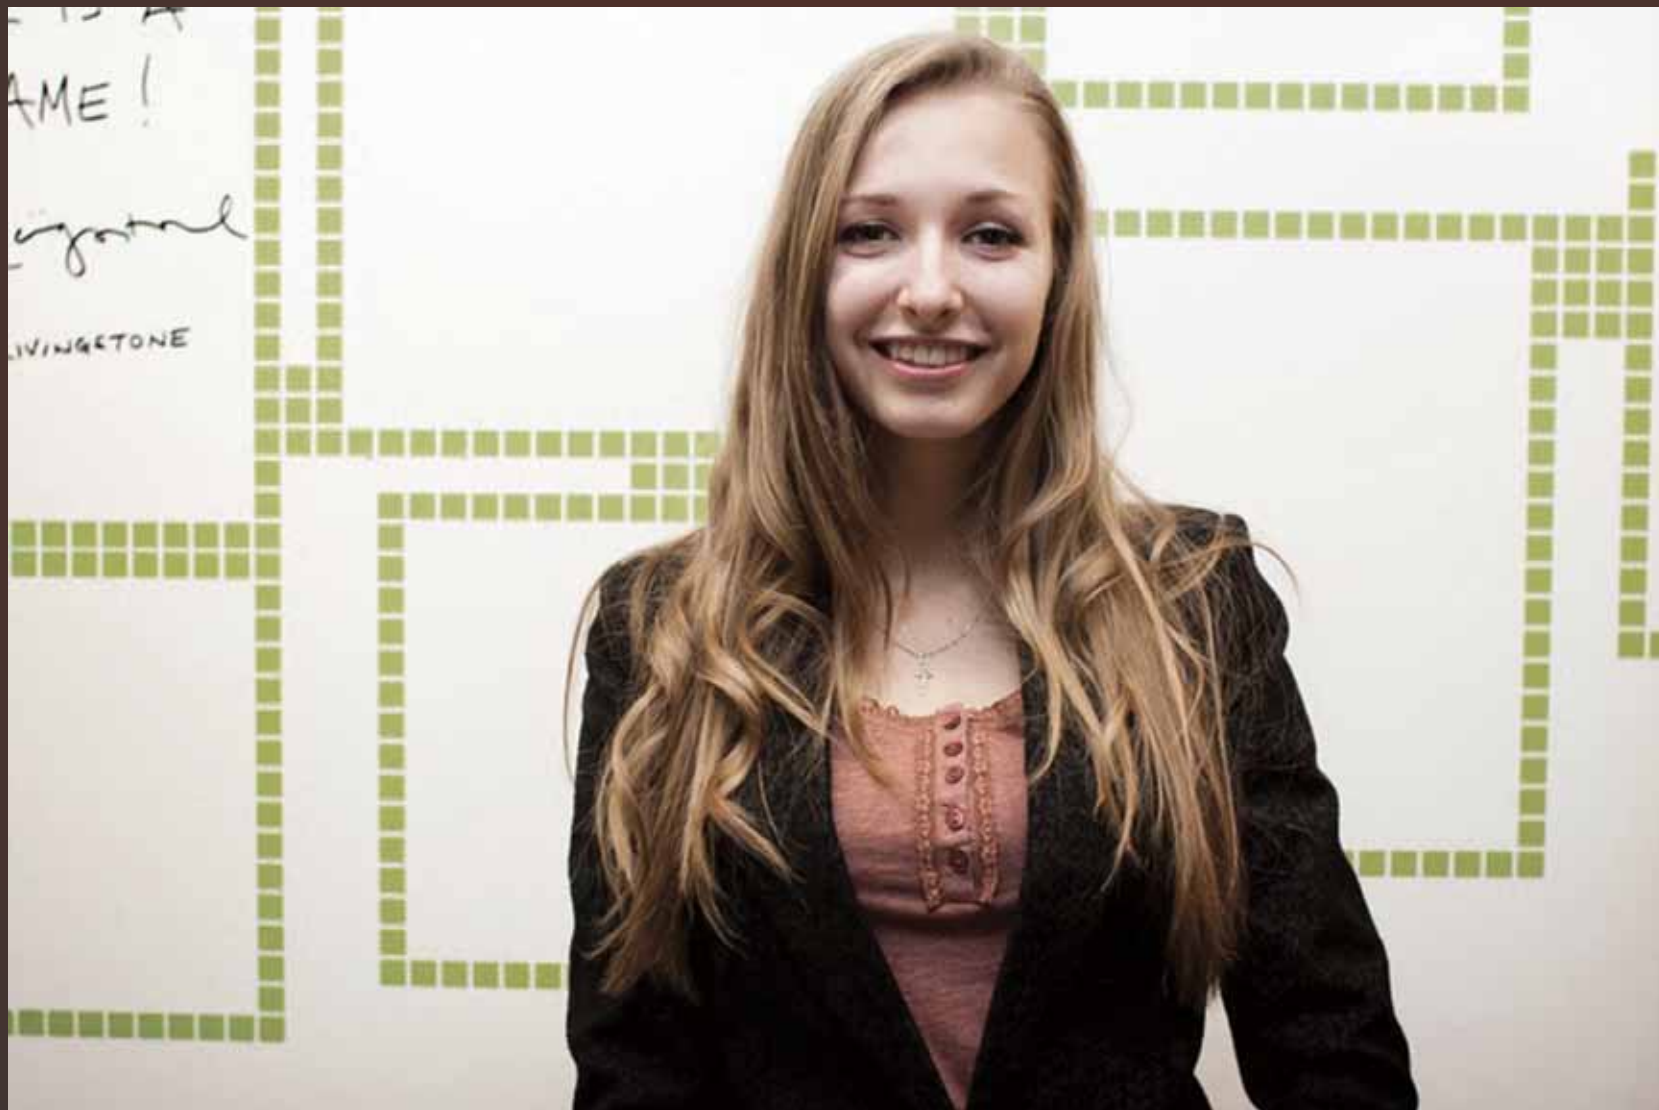

Erasmus programmi ja kraadiõppe tudengite muljed Eestist, Study in Estoniale saadetud arvamused.

Godswill, Nigeria: Estonia was so awesome, good friends, good people, caring, loving and helpful. Every day was a plus towards my career goal.

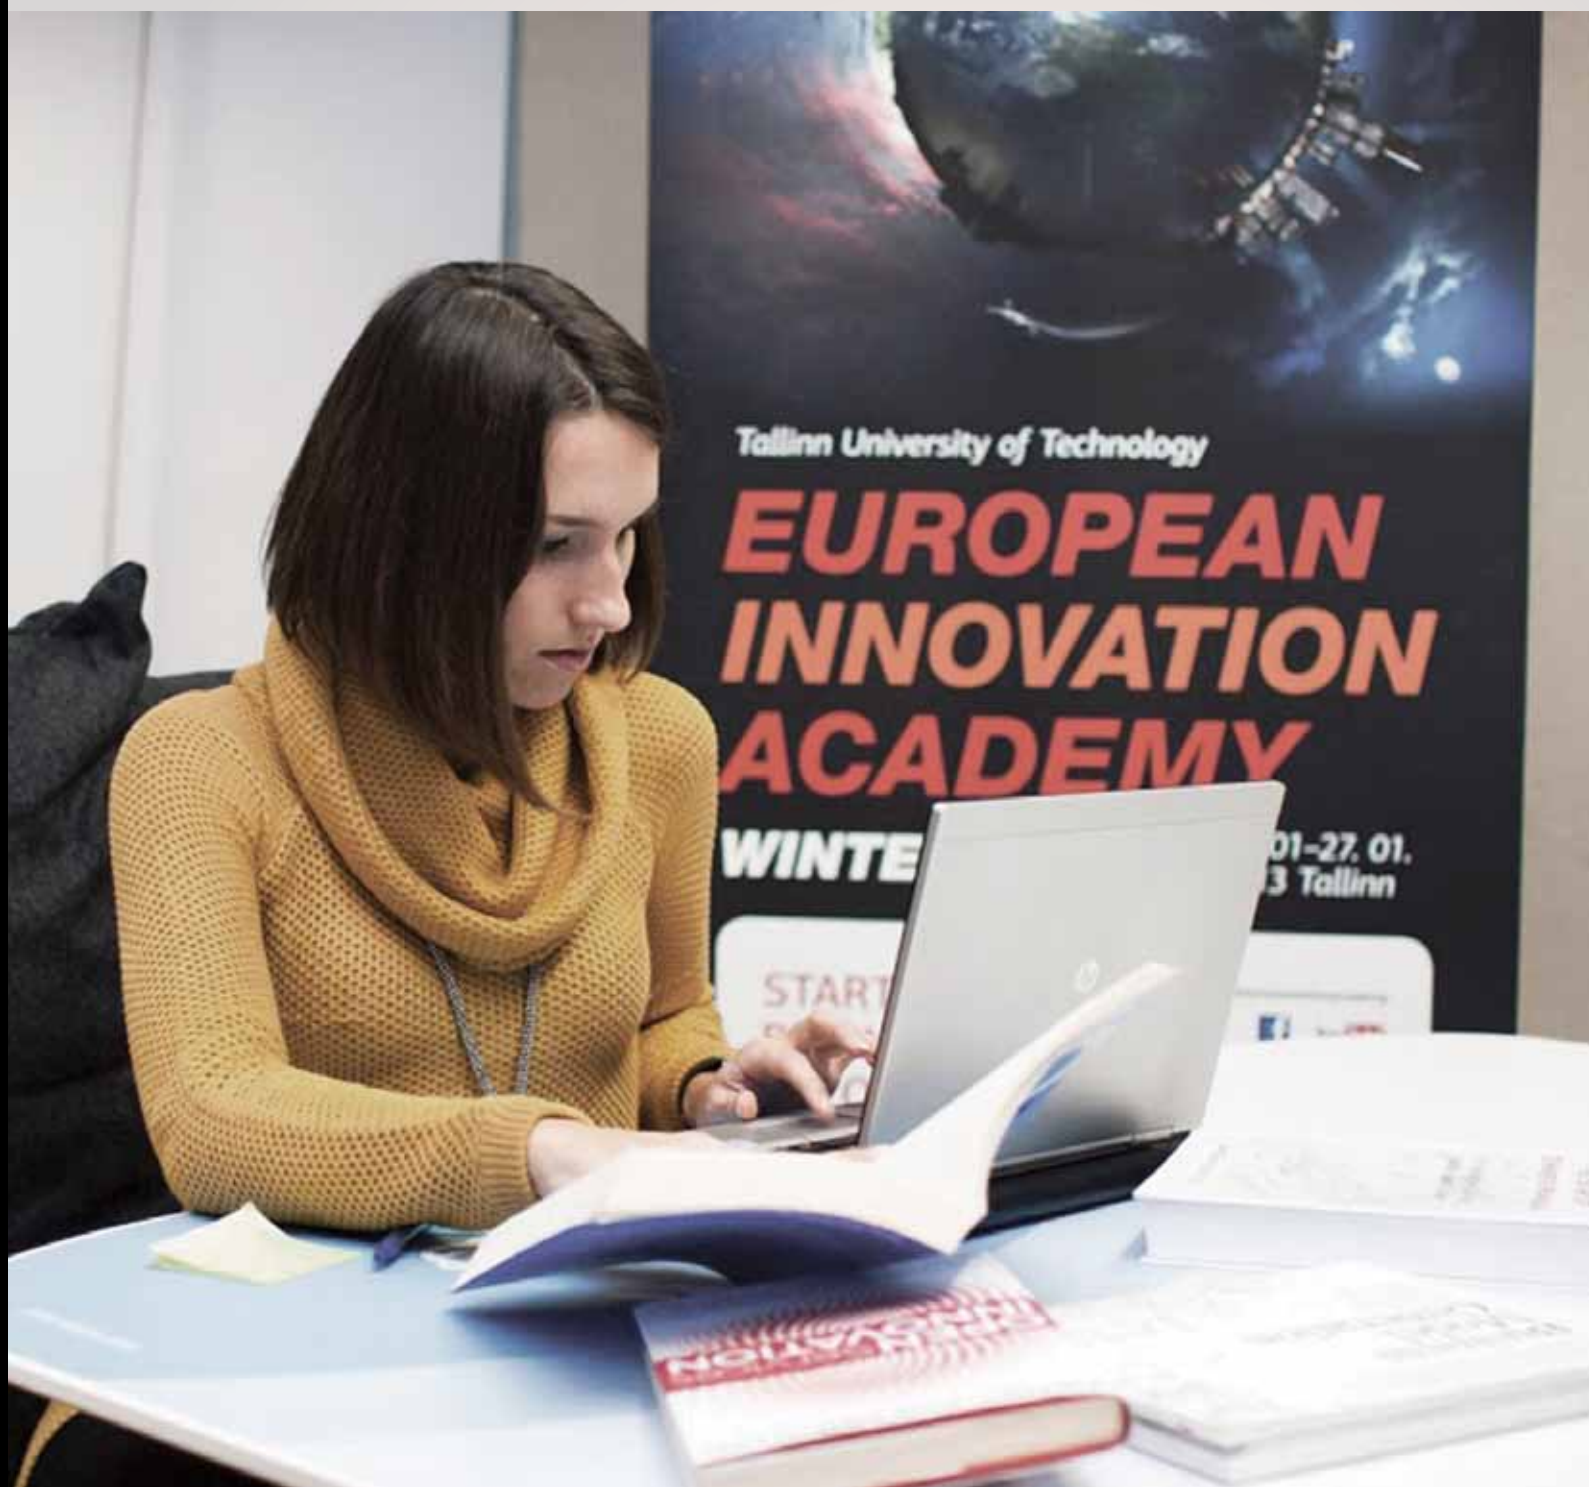

Carlos, Bogotá: Fascinating. Interesting, challenging. Demanding. Enriching. Time-consuming. Culturally aware. Multicultural.

Adrienne, USA: The benefits of studying in Estonia for me are difficult to summarise. I changed as a student but, even more so, as a human being.

Inam, Pakistan: When you think about perfection in software engineering, think about Estonia.

Laura, Mexico: I would strongly recommend Estonia as a place to study; universities here offer study programmes in English in almost all areas.

Naresh, India: And the people are good-hearted and helpful. You can see all the hair colours that exist on Earth! I also find the people to be calm, composed and introverted.

Ronja, Germany: I will miss the unbelievable beauty of the nature of Estonia. You go out of the city and you see a country as magical as a fairy-tale, and everything seems so unspoiled.

Kristina, Germany:

If you like snow and ice, then come to Estonia. ☺

Michele, Italy: The cold is okay, but don't come here dressed for an Arctic expedition.

Anna, Germany: Your survival kit should include weather-proof clothes and shoes, a camera, a Visa card and a very good mood for meeting new people.

Study in Estonia:

Thank you!

It was great to have you!

Hope to see you soon!
